Wonder

Earthsuit

Speak up sir and clearly state Your name
Did You say You are the Son and came to save
How in my right mind should I believe
That a life exists beyond what I perceiveChange all my fear to faith in You
I'm forgetting all I know
And I'm leaning on Your love
Yes, I see now all Your wonderMy mind will now make room
For all the truth that is in You
And I see now all Your wonderLet me journey to the unveiled place
Where my selfish wills and ways become untraced
Suddenly my visions getting clear
When I see the answers reasons disappear
