

On This Night

[Michael McDonald](#)

In a world of no hope a light will shine brightly
That all men might know the meaning of mercy
And of love beyond all love, peace that rests the soul
The heart will open and search no more Behold I bring You tidings
Tidings of great joy
The world has found it's answer
In a child that's born on this night Sing out across the seas cry out from the mountains
The son of man is born, let's sing of His mercy
And the peace beyond all peace, the King of kings has come
Let every heart surrender, every soul reborn Behold I bring you tidings
Tidings of great joy
The world has found it's Saviour
In a child that's born on this night, on this night Behold I bring you tidings
Tidings of great joy
The world has found it's answer
In a child that's born Behold I bring you tidings
Tidings of great joy
The world has found it's Saviour
In a child that's born on this night, on this night, on this night
