

Next To You

Bebel Gilberto

So winter's come
And summer's fall
Time is just a whisper
In the waterfall Forever now
Forever now
Every road I wander
Brings me back here next to you Be still my love
And close your eyes
Don't say a word
No hows or whys Everything I need within me
All the dreams I've dreamed are true
And all the starry skies inside me
When I'm next to you
