The All Night Lights (Live At Graspop)

36 Crazyfists

Forever we'll go out into the night with survival in all our eyes.
With knives in hand we stab at the sands of time.
To turn back and unwind.
Under the death of an age we were becoming stronger than...
With terror in our eyes, we wait on these skies to bring a new chapter...I've seen life through death, under the weight of it all, we all collapse.
And these eyes on survive, we will come from the fall and rise again.Like lions we tow the line, blood-sewn pact with truth inside.
With knives in hand we stab at the sands of time.
To turn back and unwind.
Under the death of an age, we were becoming stronger than...
With terror in our eyes, we wait on these skies to bring a new chapter.I've seen life through death, under the weight of it all, we all collapse.
And these eyes on survive; we will come from the fall and rise again.
