

Living In A Dream

Foreigner

I got nowhere to go
There's no hiding place for me
I've used up all my connections
And I've got no guarantees
And I'm out on the street now
With a monkey on my back
I need somebody to help me
To get my soul back on track Oh, someone to have faith in me
Oh, will somebody set me free
I'm living in a dream
In a scene of desperation
Living in a dream
Won't you come and rescue me
Living in a dream
Searching for salvation
Oh please, baby please
Won't you come and rescue me
I'm no different than you
You don't have to understand
We've all had our problems
Now I need a helping hand
And yeah Oh, someone to have faith in me
Oh, will somebody set me free
I'm living in a dream
In a scene of desperation
Living in a dream
Won't you come and rescue me
Living in a dream
Searching for salvation
Oh please, baby please
Won't you come and rescue me
I got nowhere to go
Got a monkey on my back
I need some help from above now
To get my soul back on track, oh
I'm living in a dream
In a scene of desperation
Living in a dream
Won't you come and rescue me

Living in a dream
Searching for salvation
Oh please, baby please
Won't you come and rescue me.
