

Polymorphing

Chairlift

There's something better than what you're asking for
Kid, kid, tonight
Something better than what you're asking for
Kid, kid, tonight
Something better than what you're asking for
Kid, kid, tonight
Something better than what you're asking for
Kid, kid, kid, kid I could not be more forgiving
Talk to Lucy, fancy living
Stick your shift in, polymorphing
Sound my guns when we're together
Shake a rain stick, guide the weather
Take the day off, I surrender
Oh darling
If this heart was a garden would you till it?
If this life was a bust would you feel it?
If this love was a wound would you heal it? There's something better than what you're asking for
Kid, kid, tonight
Something better than what you're asking for
Kid, kid, tonight
Something better than what you're asking for
Kid, kid, tonight
Something better than what you're asking for
Kid, kid, kid, kid Fill her up with serotonin
Pyrotechnic, oxytosin
Overdosing polymorphing
In the sense within the warzone
Undercover in the ozone
Bungee jumping on the upswing
Oh darling
If this heart was a garden would you till it?
If this life was a bust would you feel it?
If this love was a wound would you heal it? There's something better than what you're
Something better than what you're
Better than b-better than, niiiight
Kid, kid, kid, kid
There's something better than what you're
Something better than what you're
Better than b-better than, niiiight

Kid, kid, kid, kidHeart, heart
PolymorphingOh darling
If this heart was a garden would you till it?
If this life was a bust would you feel it?
If this love was a wound would you heal it?
Oh just make it better or somethingThere's something better than what you're
I do better than what you're
I do better than what you're
There's something better than what you're
I do better than what you're
Night
There's something better than what you're
I do better than what you're
Night
Kid, kid, kid, kid
I'm polymorphing
Everybody just calm the fuck down
I'm polymorphing
Polymorphing
Tonight
Tonight
Tonight
