

yea, babe, no way

Lany

white jeans, day dreams
you, me, our sheets
wearing nike
kissing, no sleepdamn, tell me where we went wrong
been in love for so long
now it's over
how, how did we get this far
still not know who we are
is this really overeverything was better when
you would call and I'd be like
yea babe
we should talk about love again
every night I'm wide awake
I almost call ya then I'm like
no way
oh no wayhate
how it feels
I know you're down the street
with someone else but metime
yea I need time
can't forget about
how you let me downdamn, tell me where we went wrong
been in love for so long
now it's over
how, how did we get this far
still not know who we are
is this really overeverything was better when
you would call and I'd be like
yea babe
we should talk about love again
every night I'm wide awake
I almost call ya then I'm like
no way
oh no wayeverything was better when
you would call and I'd be like
yea babe
we should talk about love again
every night I'm wide awake
I almost call ya then I'm like

no way
oh no way everything was better when
you would call and I'd be like
yea babe
we should talk about love again
every night I'm wide awake
I almost call ya then I'm like
no way
oh no way [over the last chorus]
tell me where we went wrong,
been in love for so long
how did we get this far
still not know who we are
