

# Man Should Surrender

## Pailhead

You engineer the stratosphere  
You command this hemisphere  
But water will still come  
Man should surrenderRearrange forms of life  
Battle night with your lights  
But water will still come  
Man should surrenderFlying boxes through the air  
Dropping cities everywhere  
But water will still come  
Man should surrenderFire made for all to burn  
Foolish end for all concerned  
But water will still come  
Man should surrender, surrender now
