Keep it real, keep it right  
Follow your voice inside  
Keep it real, keep it right  
Follow your voice inside From a to izzard, come on check out this art  
You air headed assholes, just stop try to piss off  
(Yo, yo)  
Shut your heads, punks 'cuz the tables turned And this one's in memory of the bums that will never learn  
While were sitting on the dock of the bay  
You're sitting on the dick of a gay , so make way  
For the H D S Q D, bitch bootie bangers  
You tell us what you want and we'll show you what, nauw'ng is Keep it real, keep it right  
Follow your voice inside  
Keep it real, keep it right  
Follow your voice inside Let's climb somebody's frame  
For example you muthafukkas that try to hit my ducats  
(Yo)  
Four cornered caught you in a bad one  
You've tried to play boss but got tossed up by the fat one How the fuck you're feeling right about now  
On the way to the curb how does it feel to be a jerk  
Now you find your's if chewed  
And fuck up like a prostitute Pure
