Injected Paradise

Pain

How does it feel to get kicked
When you're down and out?
I said, "How does it feel to get pushed off the edge
And just fall fall to the ground?"The more that you do, the less you get
Why can't see you you're going down?You're on your knees, you're begging me please
Can't get away from the needle's chill
You're taking a ride in endless time
Injected paradiseSilence roll up like walls of noise
You're getting numb and deaf
Things are getting out of control
You're out of controlThe more that you do, the less you get
The poison rushing through your dying veins
The more that you take, the more you loose
Time is taking its tollYou're on your knees, you're begging me please
Can't get away from the needle's chill
You're taking a ride in endless time
Injected paradiseThe more that you do, the less you get
The poison rushing through your dying veins
The more that you take, the more you loose
Time is taking its tollYou're on your knees, you're begging me please
Can't get away from the needle's chill
You're taking a ride in endless time
Injected paradise
