

Tonight

[Xymox](#)

Every time I look at you
I wonder what goes on
Behind your happy smile
Its something really strong Full moon swings around
Full moon swings around
On this secret night Time will fly tonight
Time will die tonight
Tonight
Tonight Every time you look at me
I wonder what goes on
If only I could swim
In those drowning thoughts Tonight Lets roll down the stairs
Soon well follow everyone
Lets roll down the stairs
Soon everybody follows everyone 'Cause time flies only with you
Time dies only with you Time will fly tonight
Time will die tonight
Tonight
Tonight Tonight Time dies only with you
Only with you
Only with you
Only with you
