Anything Could Happen

Rialto

They tried to kill us off
But this show's not over
'Cause we were born to shine
And thrill like SupernovaSo dry your tears, don't cry now
It's nowhere near the final curtainAnything could happen
This world's uncertain
Anything could happenDown every darkened street
We'll search until we find them
With knives between our teeth
We'll creep up behind themOh, 'cause creatures of our kind
Will not give in until the final curtainAnything could happen
This world's uncertain
Anything could happenI know you're hurting
Anything could happen
Anything could happen, ohI know you're hurting
But anything could happen
This world's uncertain
Anything could happenLa la la la, la la, la la la la, la la
La la la la, la la, la la la la, la la
