

School of Assassins

Kaospilot

Death squads trained to serve the pigs rage for hegemony. Blood bath scenario- violence strikes again. And while greed writes the history, human rights still are a term not spoken. This is a rouge- coloured policy, suppressing cultures. Tax paid death squads strike again. La escuela de golpas - an instrument for blood red policy. How can we imagine a future when our system conflicts with everything nature teaches us? I thought we had learnt from our mistakes, but I guess I'm wrong again. La escuela de golpas. Is surviving possible in a world without walls?
