Where Have You Been

Sydney Joe Qualls

You had to be hiding from me all this time
Making me wait so very long for you
'Cause out of nowhere you just appeared before my eyes
Letting me know that there'd be no more lonely nights
Where have you been all of my life?
What took me so long to get it right?
Where have you been all of my life?
(Tell me)
How did you know when it was time to make your move
And how did you know this heart of mine was this needing?
Being with you helps me realize that dreams come true
Next time don't take your sweet old time
To bring your love to me, oh yeah
Where have you been all of my life?
What took me so long to get it right?
Where have you been all of my life?
To be honest, it's not fair
That so much time went by
Before we had a chance to share
Our love, we should've been together
But it's better late than never
Where have you been all of my life, baby?
Where have you been all of my life? Tell me
Where have you been all of my life?
What took me so long to get it right?
Where have you been all of my life?
