

# Where Have You Been

Sydney Joe Qualls

You had to be hiding from me all this time  
Making me wait so very long for you  
'Cause out of nowhere you just appeared before my eyes  
Letting me know that there'd be no more lonely nights  
Where have you been all of my life?  
What took me so long to get it right?  
Where have you been all of my life?  
(Tell me)

How did you know when it was time to make your move  
And how did you know this heart of mine was this needing?  
Being with you helps me realize that dreams come true  
Next time don't take your sweet old time  
To bring your love to me, oh yeah  
Where have you been all of my life?  
What took me so long to get it right?  
Where have you been all of my life?  
To be honest, it's not fair  
That so much time went by  
Before we had a chance to share  
Our love, we should've been together  
But it's better late than never  
Where have you been all of my life, baby?  
Where have you been all of my life? Tell me  
Where have you been all of my life?  
What took me so long to get it right?  
Where have you been all of my life?
