

No U Hang Up

Shayne Ward

You got my attention at hello
We had this connection that wouldn't let go
There was something sexy 'bout your voice
Anything you say makes a beautiful noise
And now we break up to make up right away
Just an excuse to lay in bed all day
I know that this thing we have won't ever change
And that's why I have the confidence to say
A lot of girls are sexy but you know how to use it
You can keep me up on the phone all night
We say let's hang up on 3 but we don't ever do it
Ain't it crazy how after all this time
We got that you hang up, no you hang up kinda love
We got that you hang up, no you hang up kinda love
Every time you call me, I won't lie
I still get the goose-bumps I felt the first time
That I saw you walk into a room
Girl you had me hooked on that beautiful view
And now we break up to make up right away
Just an excuse to lay in bed all day
I know that this thing we have won't ever change
And that's why I have the confidence to say
A lot of girls are sexy but you know how to use it
You can keep me up on the phone all night
We say let's hang up on 3 but we don't ever do it
Ain't it crazy how after all this time
We got that you hang up, no you hang up kinda love
We got that you hang up, no you hang up kinda love
And baby, you still know just how to blow my mind
After everything that we've been through it still feels right
And I know, that I can't picture living my life without you
A lot of girls are sexy but you know how to use it
You can keep me up on the phone all night
We say let's hang up on 3 but we don't ever do it
Ain't it crazy how after all this time
A lot of girls are sexy
You can keep me up on the phone all night
We say let's hang up on 3
Ain't it crazy how after all this time

We got that you hang up, no you hang up kinda love
We got that you hang up, no you hang up kinda love
We got that you hang up, no you hang up kinda love
We got that you hang up, no you hang up kinda love
