

# Megalomania

## Protector

I hide myself inside the shadows of shame  
The silent symphonies were playing their game  
    My body echoed to the dreams of my soul  
It started something that I could not control  
    Where can I run to now? The joke is on me  
        No sympathizing 'cos it's insanity, yeah  
    Why don't you just get out of my life, yeah?  
        Why don't you just get out of my life now?  
    Why doesn't everybody leave me alone now?  
        Why doesn't everybody leave me alone, yeah?  
Obsessed with fantasy obssessed with my schemes  
    I meet reality with pseudo mock dreams  
    The ghost of violence was something I'd seen  
        I sold my soul to be the human obscene  
    How could this poison be the dream of my soul?  
    How did my fantasies take complete control, yeah?  
        Why don't you just get out of my life, yeah?  
        Why don't you just get out of my life now?  
        Why doesn't everybody leave me alone now?  
        Why doesn't everybody leave me alone, yeah?  
Well I feel something's taken me I don't know where  
    It's like a trip inside a separate night  
    The ghost of tomorrow from my favorite dream  
        Is telling me to leave it all behind  
    Feel him slipping away, slipping in tomorrow  
        Got to get to happiness  
        Want no more of sorrow  
        How I lied, went to hide  
  
    How I tried to get away from you now  
        Am I right if I fight?  
    That I might just get away from you now  
        Sting me!  
Well I feel something's giving me the chance to return  
    It's giving me the chance of saving my soul  
        Beating the demigod, I'm fading away  
        I'm going backwards but I'm in control  
    Feel him slipping away, slipping in tomorrow  
        Getting back to sanity, providence of sorrow

Was it wise to disguise  
How I tried to get away from you now  
Is there a way that I can pay  
Or is it true I have to stay with you now?  
How I lied, went to hide  
How I tried to get away from you now  
Am I right if I fight?  
That I might just get away from you now  
Suck me!

I'm really digging schizophrenia the best of the earth  
I'll chase my soul in the fires of hell  
Peace of mind eluded me, but now it's all mine  
I simply try, but he wants me to fail  
Feel him slipping away, slipping in tomorrow  
Now I've found my happiness, from the depths of sorrow  
No more lies, I got wise  
I despise the way I worshipped you, yeah  
Now I'm free, can't you see  
And now instead I won't be led by you now  
Free!
