

Teenage Rage

Streetheart

Verse

I don't know where she comes from
Can't tell if she's rich or poor
I know she's here to have fun
She's gonna get it that's for sureChorus
She puts on her makeup
She wraps a flag around her
She pops a few beans and pogos all night
Spray paint in her hair, you know she doesn't care
Wonder if she'll be in front
Wonder where she'll beVerse
I can't tell if she sees me
It don't matter who's on the stage
As I watch her dancing shows me, show me
It's all part of a teenage rageChorus
She puts on her makeup
She wraps a flag around her
She pops a few beans and pogos all night
Spray paint in her hair, you know she doesn't care
Wonder if she'll be in front
Wonder where she'll be
