

# Hang Them All (Get the Guilty)

Tom T. Hall

There's a murderer in your town Mister there were seven unsolved last year  
There's a murderer in your town Mister how long has he been living here  
If they hang 'em all they get the guilty if they hang 'em all they cannot miss  
If they hang 'em all they get the guilty been a lot of problem solved like this There's a thief in your town Mister  
this morning my milk was gone  
There's a thief in your town Mister how long has this been going on  
If they hang 'em all they get the guilty... There's a cheater in your town Mister last night I saw him in a bar  
There's a cheater in your town Mister is that the kind of people you are  
If they hang 'em all they get the guilty... There's a hypocrite in your town Mister I think I caught him in a lie  
There's a hypocrite in your town Mister are you gonna let that go by  
If they hang 'em all they get the guilty that's what you say we ought to do  
If they hang 'em all they get the guilty but remember they're gonna hang you too  
If they hang 'em all they get the guilty...
