

# In My Heart

## Jump5

Hey, oh ya  
Hey, oh ya Pick up my dreams  
That need a jump start  
Given all I can  
I crash and for what  
You stick up for me when I fall hard  
Take down all my fear Juggle my thoughts around in my head  
So I won't break down around each bend  
With my foot on the pedal I'll race ahead  
Drive this life with me I am I am aware  
I hear that You are near You are, You are in my heart  
You are, You are in my heart  
When every little thing is falling apart  
You're beating in my heart  
You're beating in my heart Hey, oh ya When the clock strikes night and I'm in the dark  
You'll be here and there You are  
When the lines get cut and I feel far  
Reaching out to me When I feel like a freak  
The words You say tell me to believe that I'm okay  
When I don't make sense 'cause I'm this way  
You see the best in me I am I am aware  
I hear that You are near You are, You are in my heart  
You are, You are in my heart  
When every little thing is falling apart  
You're beating in my heart You are, You are in my heart  
You are, You are in my heart  
When every little thing is falling apart  
You're beating in my heart  
You're beating in my heart There's a love I can be  
There's a buzz around You and me  
You're the sum of all I need  
I count the number of things You do for me Hey, hey  
You are  
Hey, oh ya  
Hey You are, You are in my heart  
You are, You are in my heart  
When every little thing is falling apart  
You're beating in my heart You are, You are in my heart  
You are, You are in my heart

When every little thing is falling apart  
You're beating in my heart  
You're beating in my heart  
You're beating in my heart
