

Lately

Jake Ousley

When you get into my head
I cant seem to get you out
Theres something about you I cant forget
Dont think I can go without These thoughts wont leave my mind
Doesnt matter where I go you know
Theyre with me all the time You, you got something on me
Baby, lately
You, you got something on me
Youre making me crazy
I never knew I was lonely
Til lately baby
You, you got something on me
Youre making me crazy
Lately When I see you the whole world spins
Its everything you do
Come on now tell me that
You feel the same way too These thoughts take over my mind
With or without you, you know that
Theyre with me all the time You, you got something on me
Baby, lately
You, you got something on me
Youre making me crazy
I never knew I was lonely
Til lately baby
You, you got something on me
Youre making me crazy
Lately And I wont tell you how Im feelin
Baby I wont tell you that
life would be better with me You, you got something on me
You, you got something on me You, you got something on me
Baby, lately
You, you got something on me
Youre making me crazy
I never knew I was lonely
Til lately baby
You, you got something on me
Youre making me crazy
Youre making me crazy
Lately Youre making me crazy

Youre making me crazy
