Out of Nowhere

Solitaire Miles

Seven out a twenty one knocked down now only fourteen left to go
I didn't know that I was next in line but it is not as if I had much time
Jet black all around me voices calling saying, "Please don't go away"
Last thing I remember drifting down this tunnel was bright light ahead
Out of nowhere, it came and hit me on the head
Out of nowhere
I saw it over there before it hit you on the head
I saw it over there
Out of nowhere it came and hit me on the head
Out of nowhere
I saw it over there before it hit you on the head
I saw it over there
Seven out a twenty one knocked down now only fourteen left to go
Didn't know that I was next in line but it is not as if I had much time
Jet black all around me voices calling saying, "Please don't go away"
Last thing I remember drifting down this tunnel was bright light ahead
Then when I came around somebody helped me to my feet
And said, "I believe you're still alive"
I seen twenty other people in the last half an hour
Who've been hit right between the eyes
It seems that somebody somewhere's on a mission to protect
You 'cause there's no way that you should've survived
Hurrah, hurrah, hurrah , hurrah
We're still alive
Out of nowhere, it came and hit me on the head
Out of nowhere
I saw it over there before it hit you on the head
I saw it over there
Out of nowhere, it came and hit me on the head
Out of nowhere
I saw it over there before it hit you on the head
I saw it over there
Out of nowhere it came and hit me on the head
Out of nowhere
I saw it over there before it hit you on the head
I saw it over there
Out of nowhere
