

Soul Eraser

Kreator

From the sky it came to bring
The seeds of slavery
From a mind insane an armageddon fantasy
Cure religion for the weak foundation of all laws
Redefines philosophy a tyranny from above
Soul eraser - penetrates your dying mind
Soul eraser - takes your empty soul tonight
Immortal imperator from a planet far away
A conciousless dictator hierarchy in mortal planes
A universal tyrant no emotions no regrets
Phantasmagoric dream disguise for a silent death
The sacred shrine is poisoned
A treasure of the dead
For thousand years a secret
In the dark great pyramid
See the people die
Mighty kings of shadows
Cannot be destroyed
Mighty god - king save us from this scorn under the sun
Lead us to salvation as you say things will be done
All those years of suffering starvation and demise
End with the enthronement of the saviour from the skies
Soul eraser - penetrates your dying mind
Soul eraser - takes your empty soul tonight
Immortal imperator from a planet far away
A conciousless dictator hierarchy in mortal planes
A universal tyrant no emotions no regrets
Phantasmagoric dream disguise for a silent death
