

Everything You Need (Mobin Master 12" Remix)

Madison Avenue

I've been going round here now for quite some time
And I think I've got you figured out
That you don't look at me
How I look at you
You make it so hard for my love to get through
And I just know I'd make you happy if you'd only let me in
You'll never really know unless you try
I could be the girl of your dreams
I strongly suggest you don't let me pass you by It's a lesson in simplicity
And I'll spell it out specifically
The rest is up to you
And it seriously bothers me
That you may just not ever see
The way I feel about you I've got everything you need
And I want you to be with me
And this is not some crazy fantasy
I've got everything you need Take me for a ride in your big fancy car
I wanna see how fast you can go
We'll drop the roof
And we'll find the coast
And we won't stop driving till the sun sinks low
And we can find a little place that serves a chilled white wine
Somewhere we can be alone
And you can feel free
To impress me
And we can play until its time to go. It's a lesson in simplicity
And I'll spell it out specifically
The rest is up to you
And it seriously bothers me
That you may just not ever see
The way I feel about you I've got everything you need
And I want you to be with me
And this is not some crazy fantasy
I've got everything you need
