## There It Is

## **Shalamar**

There it is, there it is What took us so long to find each other, baby?

There it is, there it is

This time I'm not wrongBut I knew the answer to why people fall in love

But then I found I knew nothing about it

Till I met you, girl, I thought that I had had enough

Now I'm sure I've always been without itAnd it feels so good that you and I can go together

Ooh baby, we won't find what we've been looking for

And this time I know we're gonna make it better

Our heart is a key to pump it at the door

Don't have to search no more There it is, there it is

What took us so long, ooh, to find each other, baby?

There it is, there it is

This time I'm not wrongIn the sea of love we set our sails when waters were up

Two in search of love with no direction

Fish were biting at the time when catching wasn't enough

We couldn't make a sport of our affectionAnd who could change that we would sail into each other

Ooh girl, I never felt the wave of love so strong

And this love I never felt in any other

I trust it like the light, how this guides the ship to land

I found it when you touched my handThere it is

What took us so long for a love so strong?

There it is, there it is

This time I'm not wrongAnd it's about time

For love to find its way back home

Girl, you're mine

Now that we've found love we've got to get it on There it is, baby

There it is, this time I'm not wrong

Got a love that's so strongLike the light, how this guides the ship to land

I found it when you touched my handThere it is, there it is

What took us so long to find each other, baby?

There it is, there it is

This time I'm not wrong There it is, hey, what took us so long

To find the sweet, sweet love?

There it is

This time I'm not wrong

This time I'm not wrong

We got a love that's so strong
