

Baby Makes Her Blue Jeans Talk

[Dr. Hook](#)

Night falls on the city, baby feels the beat

Slick and sexy angel of the street

The queen of all the night birds watch her when she walks

She don't say nothing but, baby makes her blue jeans talk
Baby makes her blue jeans, yes she makes her blue jeans talk

Baby makes her blue jeans, yes she makes her blue jeans talk

You know what she's thinking about and it turns you inside out

She don't say nothing but, baby makes her blue jeans talk
Night time in the city, magic in the air

The action starts at midnight, she'll be there

The queen of all the night birds, a player in the dark

She don't say nothing but, baby makes her blue jeans talk
Baby makes her blue jeans, yes she makes her blue jeans talk

Baby makes her blue jeans, yes she makes her blue jeans talk

You know what she's thinking about and it turns you inside out

She don't say nothing but, baby makes her blue jeans talk
Baby makes her blue jeans, yes she makes her blue jeans talk

Baby makes her blue jeans, yes she makes her blue jeans talk

You know what she's thinking about and it turns you inside out

She don't say nothing but, baby makes her blue jeans talk
She don't say nothing but, baby makes her blue jeans talk

She won't say nothing

She don't say nothing...
