When I Tell You In the End

The Superjesus

I tried to tell you yesterday
No one seems to hear a word I say
So come on in and show us how
Take the best we're taking from you nowAll in time, so it seems
Take what's mineWould you say it's just survival
All the ties that you defend
Anymore and you'll be learning
When I tell you in the endNow it's more than you could take
Counter action lingers in your wake
A lesson's an authority
Make it up to you and up to me
