

# All That I'm Allowed (I'm Thankful)

Elton John

And breaking down never seems to be that hard  
Falling short is always in the cards  
I'm on the road, sun rising at my back  
Lost it all somewhere between the cracks I always hoped that I'd do better  
That I'd come out on top for once  
We all get what we're delivered  
Then there are the lucky ones And I've got all that I'm allowed  
It'll do for me, I'm thankful now  
The walls get higher every day The barriers get in the way  
But I see hope in every cloud  
And I'm thankful, thankful  
I'm thankful, so thankful  
I'm thankful, I've got all that I'm allowed And leaving town gets to feel just like a job  
My desire never winds up on top  
I can say now, I didn't want the moon  
It's out of reach somewhere beyond this room I always hoped that I'd do better  
That I'd come out on top for once  
We all get what we're delivered  
Then there are the lucky ones And I've got all that I'm allowed  
It'll do for me, I'm thankful now  
The walls get higher every day The barriers get in the way  
But I see hope in every cloud  
And I'm thankful, thankful  
I'm thankful, so thankful  
I'm thankful, I've got all that I'm allowed I've always tried to make things clear  
Then I watched as progress stalled  
I only hope I'm standing here  
When Heaven finally comes to call And I've got all that I'm allowed  
It'll do for me, I'm thankful now  
The walls get higher every day The barriers get in the way  
But I see hope in every cloud  
And I'm thankful, thankful  
I'm thankful, so thankful  
I'm thankful, I've got all that I'm allowed Thankful  
I'm thankful, so thankful  
I'm thankful, I've got all that I'm allowed  
All that I'm allowed I'm thankful and I've got all that I'm allowed  
So thankful and I've got all that I'm allowed
