

# Blood to Spill

## Blues Saraceno

Oh my lord, I pray my soul  
Will find its way above  
Forgive me for the wrong I've done  
And all the ill thereof

There's blood to spill  
There's blood to spill  
Death keeps calling at will  
There's blood to spill  
There's blood to spill  
The good lord keeps calling at will

I stand upon these battlegrounds  
In dire times of war  
Show mercy on the suffering  
That fall before my sword

There's blood to spill  
There's blood to spill  
Death keeps calling at will  
There's blood to spill  
There's blood to spill  
The good lord keeps calling at will  
The good lord keeps calling at will

Behold these brave and weary souls  
That pass before your gate  
Release them to the ones they love  
Forego these shallow graves

There's blood to spill  
There's blood to spill  
Death keeps calling at will  
There's blood to spill  
There's blood to spill  
The good lord keeps calling at will  
The good lord keeps calling at will

Death keeps calling  
For blood to spill
