Never Be Like You (feat. Kai) [Wave Racer Remix]

Flume

What I would do to take away this fear of being loved
Allegiance to the pain
Now I fucked up and I miss you
I'll never be like you
I would give anything to change this fickle-minded heart
That loves fake shiny things
Now I fucked up and I miss you
I'll never be like youI'm only human, can't you see?
I made, I made a mistake
Please just look me in my face
Tell me everything's okay
'Cause I got it
Ooh, never be like youI'm only human, can't you see?
I made, I made a mistake
Please just look me in my face
Tell me everything's okay
'Cause I got it
Ooh, never be like you
