

# Crystal Visions (Instrumental)

## The Big Pink

She held lightening in her hand  
It's been cornered by the man  
I pretend no answering riot  
As we hid it on the hill we ran  
Fuel the mission  
With our passion  
Fighting still we ran Do you know the way  
To the silver colored road  
By the city that's run dry  
On a sequin covered horse  
And they'll wait for us to arrive  
Two hundred naked pure gold girls  
And then we'll sit and watch them ride Made of crystals in the sand  
If you want a taste you can  
In the city where the people are alone  
She held lightening in her hand  
It's been cornered by the man  
I pretend no answering riot  
As we hid it on the hill we ran  
Fuel the mission  
With our passion  
Fighting still we ran Do you know the way  
To the silver colored road  
By the city that's run dry  
On a sequin covered horse  
And they'll wait for us to arrive  
Two hundred naked pure gold girls  
And then we'll sit and watch them ride
