

Me and My World

Disbelief

along a strange way
tear down all fears
rely on mind's eye
and face all doubts
beware of the know all
their pessimistic view
preserve your conviction
just visual - just visual for you
me and my world
a wholesome church
no easy movement
against the stream
pragmatic values
destroy the dream
beware of the know all
their pessimistic view
preserve your conviction
just visual - just visual for you
me and my world
a wholesome church
I take the difficult way
I don't need any church to pray
I've chosen the right way for me
I take the difficult way
I don't need any church to pray
I've chosen the right way for me
me and my world
a wholesome church
come on and see - and see...they destroy the dream
they destroy the dream, my dream
they destroy the dream
they destroy the dream, my dream
my dream
