

# vacuum

## Supertroels

The yesterday we loved  
Speaks of tomorrow  
The blood of man matters in time  
Never taste the puss  
We live from Monday to Sunday  
But forget what it means  
Then it comes, a closed fist  
And we just started from Devil's rights  
Well call all your friends  
Watch me throw down  
From the need of vacation  
We're speeding from triple hate and artifacts  
We're still superiors  
And as for understanding  
Lie, rape, steal and murder  
To make the night realize  
Crush the system  
Make your contributions mine  
Pour out and will you get  
This strong as they've become  
You sat in silence, hear a voice  
How far are we ready to take this  
You sat in silence, hear a voice  
Before it all crumbles

Lie, rape, steal and murder  
Smiling I plot your pain  
Can I turn up the TV?  
Exploding sympathy, farewell man  
I trust we part our company  
We're still superiors  
And as for understanding  
Lie, rape, steal and murder  
To make the night realize  
Crush the system  
Make your contributions mine  
Pour out and will you get  
This strong as they've become  
You sat in silence, hear a voice

How far are we ready to take this  
You sat in silence, hear a voice  
Before it all crumbles  
Lie, rape, steal and murder  
Smiling I plot your pain  
You sat in silence, hear a voice  
How far are we ready to take this  
You sat in silence, hear a voice  
Before it all crumbles
