

# Human Cannonball

David Wilcox

Time, this time  
Finally the moment is mine  
The crowd is wowed  
I'm walkin' to the cannon so proudThe cannon fills the spotlight  
So shot me to the view  
My heart packed full of dynamite  
I will fall for you, all for you, babySee this is your big top baby  
And you've got all your clowns around you too  
I can hear that drum roll baby  
And that means that the torch is to the fuseLove, true love  
I can feel it when I'm high above  
But I fall, that's all  
I'm your human cannonballAlways dreamed of flyin'  
And now the dream comes true  
I'm not afraid of dyin'  
So I will fall for you, all for you, babyThis is your big top, baby  
Yeah, you've got all your clowns around it's true  
Why are you just smilin' at me fallin'  
Oh, maybe this is keeping you amusedI was the one you wanted  
If I could stay that high  
If I could burn my sorrow like it was fuel to flyThe sound comes 'round  
Now I wake up with my ear to the ground  
I rise surprised so this is how a fool gets wise, ohI'm gonna leave your three-ring-circus  
I was a fool to fall  
I'm gonna leave your three-ring-circus  
Your human cannonballI'm gonna leave your three-ring-circus  
I was a fool to fall  
I'm gonna leave your three-ring-circus  
Your human cannonballI'm gonna leave your three-ring-circus  
I was a fool to fall  
I'm gonna leave your three-ring-circus  
Your human cannonball
