

Blindfolded

Lonely Kamel

Walking through this strange and crowded place

Imagining your face, fighting my way through

Oh I feel you getting close with every step

With all that I have left

I'm reaching out for you

If I was blindfolded

If my memory was erased

If every sign pointed to another place

I'd still find you

I will still find you

I'd still find you

If I was blindfolded

My fingers trace the outline of your shape

And recognize the way you pull me into you

Oh you're calling out to me not saying a thing

You're everything I need

And all that I could never ever lose

If I was blindfolded

If my memory was erased

If every sign pointed to another place

I'd still find you

I will still find you

I'd still find you

You're the gravity that's taken hold of me

Every time I lose my way

It's the chemistry more than eyes can see

And no matter where I am

I will still find you

I will still find you

If I was blindfolded

If my memory was erased

If every sign pointed to another place

I'd still find you

I will still find you

I'd still find you

If I was blindfolded

If my memory was erased

If every sign pointed to another place

I'd still find you
I will still find you
I'd still find you
If I was blindfolded
