

Critical Minute

Gluecifer

Rack'em up for a straight ruler and take the curse
I've never felt too good but tonight I think I'm feelin' worse
Gotta get some power lotion and go lubin' up them joints
Gimme full speed to the breakdown baby I got terror boilin' in my loins
Critical minute and I'm feelin' bad
Just not in it I'm feelin' so goddamned had
Critical minute and I'm feelin' down
Just not in it
Stuck with boredom stuck with hate stuck with a really lame debate
Sonic eyeball action and it's meant for me
So pack it up now and be sure to keep it closed
I'm desperately seekin' all the words that I hate the most
