

Eyes In the Back of Your Head

The Adicts

Everything is alright, everything is fine
All you've got is money and all I got is time
Everybody's happy, everyone's relaxed
Everybody's dreaming but someone's gotta attack
Everything is alright, everything is fine
All you've got is money and all I got is time
Everybody's happy, everyone's relaxed
Everybody's dreaming but someone's gotta attack
You better be alert 'cause you're gonna get hurt
Better be alert
And you better beware 'cause no one will care
So you better beware
Eyes front, eyes left, eyes front, eyes right
Eyes in the back of your head
Everything is alright, everything is fine
All you've got is money, money, money and all I got is time
Everybody's happy, everyone's relaxed
Everybody's dreaming but someone's gotta attack
You better be alert 'cause you're gonna get hurt
Better be alert
And you better beware 'cause no one will care
So you better beware
Eyes front, eyes left, eyes front, eyes right
Eyes in the back of your head
You need eyes in the back of your head
You need eyes in the back of your head
You got eyes in the back of your head, you know
You need eyes in the back of your head
You need eyes in the back of your head
You need eyes in the back of your head
You got eyes in the back of your head
You got eyes in the back of your head
You got eyes in the back of your head
You need eyes in the back of your head
You need eyes in the back of your head
You got eyes in the back of your head
You got eyes in the back of your head
You got eyes in the back of your head
You got eyes in the back of your head
