

# Get Away

## E-Rotic

Rap: Lay your body down  
We'll go so deep until we drown  
We'll do everything  
'Cause I'm your yang and you're my yin  
Read my lips and read my eyes  
I'll fit to any size  
If you sleep with me you'll be  
A slave of ecstasy  
Get away, get away  
Out of my life  
Get away, get away  
Take the overdrive  
Get away, get away  
Out of my heart  
Get away, get away  
'Cause we gotta part  
I don't need your love anymore  
Get away - and take the back door  
Rap: Fall into my hands  
It's a song that never ends  
Hold me close - hold me tight  
Make you feel like dynamite  
Take me low - fly me high  
There's no limit but the sky  
I don't care what you might do  
When I fall for you  
Get away, get away  
Out of my life  
Get away, get away  
Take the overdrive  
Get away, get away  
Out of my heart  
Get away, get away  
'Cause we gotta part  
I don't need your love anymore  
Get away - and take the back door
