Keep On Driving

Paul Kelly

Oh, the night is young and the road is long
There?s a hanging moon
You and me, we got a thousand songs
Now the city lights are a distant glow
And the only thing, the only thing we gotta do is go
So keep, keep on driving, keep on driving
Well, I loved a girl
From spring to fall
It?s over now, I really don?t mind at all
Such a beautiful catastrophe
There ain't no doubt she sure is glad to see the back of me
So keep, keep on driving, keep on driving
Keep on driving, keep on driving
Through the piny woods, across the rolling downs
See the church spires high above the sleeping towns
Getting closer now to the borderline with every passing sign

I?m so happy that you?re by my side
I?m so happy that you?re by my side
I?m so happy that you?re by my side
Keep, keep on driving
Keep on driving, keep on driving
Keep on driving, keep on driving
I?m so happy that you?re by my side
I?m so happy that you?re by my side
(Keep on driving)
I?m so happy that you?re by my side
I?m so happy that you?re by my side
(Keep on driving)
I?m so happy that you?re by my side
I?m so happy that you?re by my side
(Keep on driving)
