Truck Driver

(Verse 1)
Well tell me have you ever, travelled earth in a Kenworth
Or have you ever been behind the wheel, of a Peterbuilt
Most people never been, so ya gotta give some respect
To a man movin slow in control of eighty thousand pounds of rollin death.

(Chorus)
This song is for the truck driver haulin freight across this land
Make a loud noise for the dirt boys haulin rock or a load of sand
Can I get a whats up to the beer truck for the cold one in my hand
This song is for the truck driver let me tell ya thank you man

(Verse 2)
If you drive truck for a livin, you gotta deal with the traffic
And from this cab you see everything, especially all the idiots
Most people wonâ€™t let you in and nobodyâ€™s gonna let you out
But if it wasnâ€™t for the truck driver the whole world would go without

(Chorus)
This song is for the truck driver haulin freight across this land
Make a loud noise for the dirt boys haulin rock or a load of sand
Can I get a whats up to the beer truck for the cold one in my hand
This song is for the truck driver can I get a hell ya!

(Bridge/solo)
Hell ya! Give it up for the truck driver
Hell Ya!
Hell ya! Give it up for the truck driver
Hell ya!

(Verse 3)
If youâ€™ve ever been on 18 wheels then you know what Iâ€™m talkin about
The sound of a cannon goin off behind you when a tire blows out
Deliver that load and keep it steady and be ready for anything
Then turn and burn and pick up another and do it all over again

(Chorus/bridge break)

This song is for the truck driver haulin freight across this land
Make a loud noise for the dirt boys and let me tell you something man
Well there aint nothing hotter than a truck drivers daughter my wife is livin proof of that

So remember if you got it

A truck driver brought it

Can I get an amen

Hell ya! Give it up for the truck driver
Hell Ya!
Hell ya! Give it up for the truck driver
Hell ya!
Hell ya! Give it up for the truck driver
Hell Ya!
Hell ya! Give it up for the truck driver
Hell ya!
