

Honor Among Thieves

The Suicide Machines

Runnin with the thieves yeah - And slumming with the rats
Been runnin fifteen years - You can never bring me back
We lived our lives hard - And we lived our lives fast - Fightin for the future
Still e struggle with our past - And we're still all outcastsCause this is the - Only life I know
When push comes to shove - Will I be left standing alone - Alone - Standing alone
We gave it our all - But was our all ever enough - Was it enoughFlew Through all th good times - And dragged
through all the bad
These are the best friends - That I ever had
Living like paupers - We were runnin with the kings - Fighting like brothers
I wouldn't change a thing - No I wouldn't change a thingCause this is the - Only life I know
When push comes to shove - Will I be left standing alone - Alone - Standing alone
We gave it our all - But was our all ever enough - Was it enoughI got your back - And you've got mine
We can make a difference - It just takes some timeI got your back - And you've got mine
We can make a difference - It just takes some timeCause this is the - Only life I know
When push comes to shove - Will I be left standing alone - Alone
Standing alone- We gave it our all - But was our all ever enoughCause this is the - Only life I know
When push comes to shove - Will I be left standing alone - Alone
Standing alone- We gave it our all - But was our all ever enough - Was it enough
