

# I'm Yours

## The Green

So girl, what you gonna do  
Can't you see that I'm fallin for you  
You got me going crazy and you know it's true  
Playing silly games without me knowing the rules  
Now girl I know you've been a little confused  
You can't decide which guy to choose  
No other man can love you like I do  
And deep inside you know you love me too  
I'm yours pretty girl, save me from this world of confusion  
Lady, can't you see, you were sent to me for a reason x2  
Oh girl, only time will say  
Whether or not you chose to swing my way  
I'll give you loving each and every day  
Make you smile when the clouds are grey  
Now girl I'm gonna treat you like a queen  
The fact you go the son doesn't change a thing  
It's cool with me cos I'll provide for three  
Oh baby girl, wont you stay with me  
I'm yours pretty girl, save me from this world of confusion  
Lady, can't you see, you were sent to me for a reason x2  
I'm yours pretty girl, save me from this world of confusion  
Lady, can't you see, you were sent to me for a reason x2  
I'm yours, I'm yours, I'm yours pretty darling x2
