Fallen

Haste the Day

Don't cry tonight, my love
You will not bleed alone
And I will stand with you
And I will stand with youDon't cry tonight
I will stand with youBeen alone far too long
Time to returnYou've been alone for far too long
So long, return
You've been alone for far too long
So long, returnYou've been alone for far too long
Time to returnDon't cry tonight
I will stand with you
Don't cry tonight
I will stand with youYou've been alone for far too long
Time to return
You've been alone for far too long
Time to returnYou've been alone for far too long
So long, return, I will stand with you
You've been alone for far too long
So long, return, I will stand with youYou've been alone for far too long
(These wounds, they will not last forever)
So long, return, I will stand with you
(You've been broken for so long)
You've been alone for far too long
(Dead end becomes your second chance)
So long, return, I will stand with you
(You've been broken for so long)
