

Hey Love

Hayden

Hey love,
You've got a habit of slipping away.
When things get a tough,
It's not so easy to get you to stay.
It's been so rough,
We have been through more than enough.
Without this love,
There would be no reason for either of us. Hold me like you want to be held by me.
Tell me all you want me to say.
Treat me like you want to be treated.
Baby, this thing we can both beat it. Hey love,
The others were just leading up to this.
So don't give up,
Everyone we know is cheering for us.
It's been so rough,
We have been through more than enough.
Without this love,
There would be no reason for either of us. Trust me like you want to be trusted.
Try the way you want me to try.
Take me where you want to be taken.
Baby, this ain't no time for faking.
Baby, this ain't no time for faking.
No, baby, this ain't no time for faking.
