

# Denigration Makes Jon Doe Angry

## Catherine

Each time you open your mouth, I want to rip your heart out.  
Each word you say to me is designed  
To make me hate myself worse than I have ever hated you.  
With you the scene is a battlefield,  
Death to all who don't look like you.  
With you the scene is a war,  
but you wear a uniform too.  
You say that were face, you say that were talent less,  
But you dance just the same.  
You are a coward, you don't want a unity,  
All you want is uniformity.  
So much for your claims of acceptance and brotherhood.  
You are a heartless snake,  
I hope one day you face your vision,  
And it destroys you like the dream you claim to embrace.  
I hope one day your scene destroys you
