

War Machine

Kill Devil Hill

Feel the pressure tunnel vision
Is this for real or am i dreaming?
Faces of death fade to gray
as generals justify
The price that must be paid
to feed this war machineChoose your weapon set your sights
Pull the trigger of obligation
Faces of death can't look away
Haunting troubled dreams
No choice you must obey
Can't stop the war machineFaces of death fade to gray
as generals justify
The price that must be paid
to feed this war machineReach for your holster
Look over your shoulder
No telling what's up around the corner
Lying in wait a dance with fate
The sensen fade
as instinct takes overFaces of death can't look away
Haunting troubled dreams
No choice you must obey
Can't stop the war machineFaces of death fade to gray
as generals justify
The price that must be paid
to feed this war machineWAAAAAR!
