

Vicious Cockfight

From Autumn to Ashes

Twice as arrogant as I am talented
Inspiration has been diluted, I'm dependent on this solution
Thank you Tennessee for your contribution
Keep conspiring towards my reduction There's a nervous breakdown building beneath
This calm exterior but no one seems to notice
Not exactly a charismatic speaker
Rising demand, I just get buried deeper Think it's time, let you know
My rope ended miles ago
When progression bottoms out
You must consider another route There's a nervous breakdown building beneath
This calm exterior but no one seems to notice
Not exactly a charismatic speaker
Rising demand, I just get buried deeper Anthemic patrons that practice
Masked identity, socially anxious
Stop his acting, I'd rather navigate
Peaks and valleys, uncharted head space Think it's time, let you know
My rope ended miles ago
When progression bottoms out
You must consider another route
