

Shine

Jeff Williams & Casey Lee Williams

 baby it's time to make up your mind
 i think that tonight is when our stars align
 honey it's now we leave the doubt behind
take my hand cuz you and I are gonna shine
 i was cold in the dark
 it was empty in my life
 from the outside it looked so bright
but nothing felt rightto me like a sky with no sun
 like a night that has no day
 my heart was eclipsed by the dark
then something changed i saw a little ray of light come through
 the tiniest of sparks came into view
 and then
 you made me hope again
 i've been watching you helping you
 wishing that you'd see
that the girl you've been waiting so long for could be me now-i've never been in love
 but i think this is it
 it might be just a school girl crush
but i have to admit i wanna take a chance and make you see
 i think that you're the one who'll rescue me
 this time
you're finally gonna see you should be mine but baby it's time to make up your mind
 i think that tonight is when our stars align
 honey it's time to leave the doubt behind
take my hand cuz you and I are gonna shine
 i won't need any dreams
 it's all there if you're by my side
 every moment's enough
and you take me to paradise when i needed a hero you knew it
 and you were there
 and i'm scared but i'll open my heart up
i'm ready to dare i know i've never felt like this before
 I never really knew what love was for
 i dreamed
 but never did believe
but baby it's time to make up your mind
i think that tonight is when our stars align
honey it's time to leave the doubt behind
take my hand cuz you and I are gonna

light the sky until it's dawn and
baby you and I are gonna shine
