Under The Tide

CHVRCHES

I'm watching you run
Run from the sidelinesTake in a breath
Fill in your lungs
Keeping you aliveNo fear
I'll your eyes
I'll be a lifelineAnd if I can be
I'll be your strength
And it won't be long nowHead up, head up
Keep holding, holding
Your head up, head up
Keep holding, holdingIf you can see
And you believe
Why are you so scaredBut if you don't care
Then why are we here
And what do you have leftHead up, head up
Keep holding, holding
Your head up, head up
Keep holding, holdingDon't you take another step
Away from here
I would go anywhere with you
What a lieI'll break down
But you will never see
Tell me, are you happy?
Are you really happy?Stay under the tide
Stay in my eye line
Looking ahead, there is a chance
Wherever it all endsHead up, head up
And stay strong
Holding your head up, head up
Keep holding, holding
