

Heaven

Nelly

[Intro: Daley]

Said it feel

It feels like heaven[Verse: Nelly]

Take it to the heaven, take it to the floor

This feeling heaven-sent

Every single me and you woke

10 bottles and up, here we living up

Fly but the clouds you'll never get stuck

And you can take your take your time, my intentions you'll handle

So said do you see? And got me seeing stars tangled

And I'm going for the Superbowl field goal

I know you feeling it right, hot lookin tonight

It ain't no stopping when we poppin, girlfriend go in

Yea we got high all because she touchin and rubbin

Plus above it I know you gotta be sick

But your light shine baby every time okay[Hook: Daley]

It feels (it feels good)

It feels like heaven

And I don't wanna go there girl so soon

So won't you please come down here

It feels like heaven![Verse: Nelly]

Don't hold your breath, don't listen

Feel like you going through hell - it's just a visit

Feel everything you going through you're on your own

Take a shot of the silver shot, thank God for Patrone

Thank God for the millionaires

You can separate the boys from the million now 'cus you see your virtue

You knowin your comfort and it feels like heaven

Even though we wasn't gonna work your body

Meet me up and down to the town

Baby I just wanna feel right here right now

One time, one choice

Baby it's gonna fall

I hope to God never let you go

It feels like[Hook: Daley]

It feels (it feels good)

It feels like heaven

And I don't wanna go there girl so soon

So won't you please come down here

It feels like heaven!Sunshine every time we move
It feels like heaven!
Go angel and our love will never leave and it will live on
It feels like (go ahead still spit it so we hit it on time)
It feels like heaven
No breaking lights, baby go hard it's fine[Verse: Nelly]
Never hate the ladies and make the babies
Girl you could be anything you want
And you deserve it, I know you're worth it
Never ever let the feeling go
Never hate the ladies and make the babies
Girl you could be anything you want
Now put your hands up high, 'cus you're going for a ride
As the feeling of love keep your feelings inside[Hook: Daley and Nelly]
It feels (it feels good)
It feels like heaven
And I don't wanna go there girl so soon
So won't you please come down here
It feels like heaven!It feels like
It feels it feels like
(No breaking lights, baby go hard it's fine)
